WEATHER:

Vale Weather: Partly cloudy with isolated evening thunderstorms.

Temp 90-98, Rh's 9-14%, Winds N 5-15 mph, Haines 4 (low). LAL 2

Pendleton Weather: Mostly sunny.

Temps 93-100, Rh's 8-14%, winds N 5-7 mph, Haines 5 (moderate), LAL 3

DEFINITIONS:

LAL (Lightning Activity Level): A numerical rating from the lowest of 1 to the highest of 6, keyed to the start of thunderstorms and the frequency and character of cloud-to-ground lightning forecasted or observed on a rating area during a rating period.

Haines Index: A national fire-weather index based on the stability and moisture content of the lower atmosphere and their direct relationship to the growth of large fires. The index is from 2-6 with 2 being the lowest potential for large fire growth while 6 is the highest large fire growth potential.
